Battery details

Battery capacity
43 kWh

Operating power
30.72 kW

Battery system
Maple Leaf Solar -

Battery mode
Self Consumption

Calculations assume battery is used in **Self Consumption** mode at all times Installed battery images are provided only for representational purposes. Actual results may vary

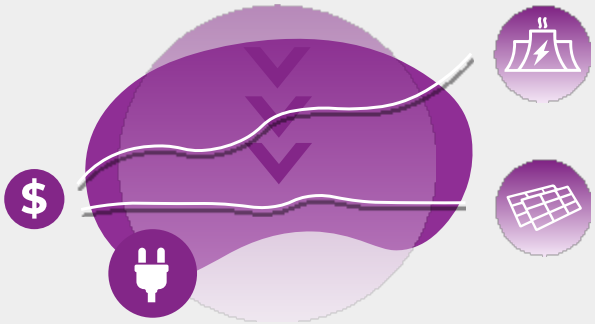
Benefits of Solar



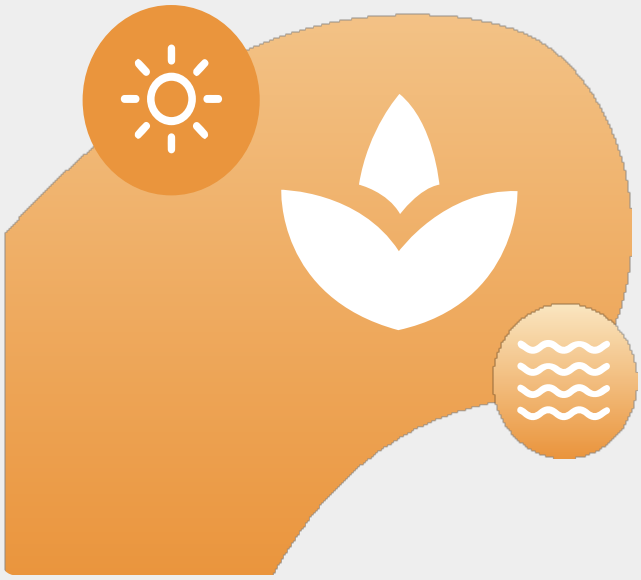
Control your energy costs

As utility prices continue to climb you will enjoy predictable energy costs for years to come.

Increase the value of your property

A number of real estate studies find that solar is a building improvement that may increase the market value of your property.

Benefit your environment



314,735

Litres of gasoline saved

31,443

Trash bags of waste recycled

12,315

Tree seedlings grown for 10 years

369,120

Kilograms of coal saved
